

Northern California HIDTA & Central Valley HIDTA

Present:

Tactical Medical for First Responders

Blue Lake | August 10-13, 2021

Course Description: The Tactical Medical for First Responders program is designed to define a Medical Threat Assessment, to include a medical plan for a tactical operation. Students will learn how to apply techniques to control life threatening bleeding during Care under Fire in a (HOT ZONE). Additionally, they will perform techniques to treat life threatening and non-life threatening injuries during Tactical Field Care in a (WARM ZONE). During the program students will demonstrate lifting, moving and extricating victims from a tactical or hostile environment during Tactical Evacuation Care

Students will get the following equipment from this class for free: Individual First Aid Kit which includes Two tourniquets, chest seal, combat gauze and trauma dressing, case to hold the items and belt carrier for one tourniquet.
